### **b62 ADJUSTABLE FRAME [W=0558 -> 0930MM] [H=++++MM]**

FRAMES [b62 STANDARD]

Immediate size flexibility in a single frame.

- b62® frame adjusts from 558mm to 930mm wide by loosening and tightening set screws.
- Available in standard b62® heights of 1984mm, 2418mm, and 2976mm.
- Frame adjusts to 62mm increments for easy integration into the beMatrix System.
- Reduces the need for infrequently used frame sizes.
- Provides “on the spot” design adjustments using one frame.
